SAFETY AND SECURITY

FIU at I-75's first line of help in non-emergency situations is through Broward College's Campus Safety. Their office is located next to the main entrance on the first floor. In the event of an emergency, the Miramar Police Department and Miramar Fire Department are the designated first responders. In the case of a cardiac event, an AED (automated external defibrillator) machine is located on the third floor, across from the administrative office suite, room 302. With clear audio and visual commands, AEDs are designed to be simple to use. An alarm will sound and the authorities are contacted when an AED is removed from its cabinet. Contact one of our staff if you have any questions.
